Description

This fantastic four bedroom family home was built in 2012 and has been professionally refurbished by the current owners and their interior design team to create an absolutely unique space. Situated within a gated mews this house is semi detached and benefits from the mews facilities including secure bike storage and a communal square/garden, which the other three mews houses within the development also share. Entering the house is a spacious hallway which leads into a wonderfully open reception space. This area has been excellently designed by the owners with bespoke built in storage. The incredible ceiling height creates an amazing sense of space. The entire rear wall of the house is glass with doors leading out on the private rear garden. Down a few steps and at the front of the house is the high specification kitchen, large enough for an 'eat in' dining area. Located just above the main living space is another reception space on the mezzanine, perfect as a less formal seating area, snug or study. On the first floor are three very well sized bedroom, one with an ensuite bathroom and another with a balcony overlooking the garden. There is also a useful utility cupboard on the landing. On the top floor is the stunning master suite, with walk in wardrobe, luxurious ensuite bathroom as well as full width balcony. The skylight on the landing floods this floor, with natural light. This is an absolutely fantastic house which has been designed and improved to the highest standard.
