TN Development

Letcombe Bowers is the most recent project from TN Development, developers experienced in both new build homes and barn conversions across the south coast in prestigious locations such as Bosham and Canford Cliffs.

With the passage of time, homebuyers' horizons extend and expectations continue to rise. The highest standards of even ten years ago are no longer enough to satisfy today's demanding lifestyles and clientele. TN Development understand this and are keen not to only to meet client expectations but wherever possible to exceed them. *"We want to surprise and delight. We strive to provide a quality and service in location, design and construction which enhances people's lives and reminds them daily of the quality of the environment in which they have chosen to live."*

Because of the standards they work to in design and construction, a TN Development home is planned to be easy to run and maintain. These very characteristics will, when you decide to move on, have every bit as much appeal to subsequent home owners thus reminding you of the wisdom of your original investment.

"Excellence is only ever relative."
